

PharmAcademic Release Notes: January 2026

The January 2026 addresses the following items. For additional details, please consult the PharmAcademic Help Center or contact support@mccreadiegroup.com.

- Due to a recent update, inactive learning experiences were not specified as inactive on the Learning Experience tab when users chose to display them on the grid. This release has resolved the issue - inactive learning experiences now appear with the red text “Currently Inactive.”
- Added “Board Certified Pain Management Pharmacist (BCPMP)” as an option to the Qualifications page of the Electronic Preceptor APR.
- Added the new PGY2 Pediatric Pharmacy and Pediatric Specialty Pathway (PSP) Competency Areas, Goals, and Objectives (CAGOs) to PharmAcademic.
- Added the new PGY1 Veterinary Pharmacy CAGOs and program type to PharmAcademic.
