

PharmAcademic Release Notes: February 2024

Release Date: 2.15.2024

Updates to PharmAcademic to Support Transition to New Competency Areas, Goals, and Objectives (CAGOs)

Updates were made to PharmAcademic to improve the process for transitioning programs to new CAGOs. Additionally with this release, the following data changes were made:

- The harmonized 2024 PGY1 CAGOs were added to all PGY1 Pharmacy, Community-Based Pharmacy, and Managed Care Pharmacy programs.
- PGY1 Elective objectives were removed from PharmAcademic (no longer available to be added to programs). *Note: PGY1 and PGY2 programs will be able to continue using the PGY1 Elective objectives for the remainder of the 2023-2024 year.*

Updates to PharmAcademic to Support PGY2 Pediatric Programs

Approved PGY2 Pediatric programs were designed as Specialty Programs in PharmAcademic so they can select appropriate appendix (pathways) when enrolling residents.
